The amendment after the final rejection is going to be entered and the application is now in a condition for allowance.

**The Status of Claims :**

Claims 103-154 are pending.

Claims 1-102 and 155-157 have been canceled.

Claims 103-154 have been allowed.

**Reasons for Allowance**

1. The following is an examiner's statement of reasons for allowance:

The close references for the current invention are Springer et al (WO94/25429) and Cozzi et al (WO97/03957).

Springer et al discloses a 3-fluorobenzamide of the formula (A) :

wherein R-NH is the residue of an  $\alpha$ -amino acid R-NH<sub>2</sub> or oligopeptide R-NH<sub>2</sub>, and M is a nitrogen mustard group of the formula

wherein Y and L, which may be the same or different in a molecule, are leaving groups; and pharmaceutically acceptable salts thereof. The F group may be at the 2- or 3-position relative to the —CONH-R group.

Art Unit: 1625

Cozzi et al teaches 3-methyl-4-N,N-bis(2-chloroethyl)aminobenzylic acid which can be used in a treatment to ameliorate a cancer .

However, the instant invention differs from the prior art in that none of them disclose the claimed compounds. In addition, unless all limitations of the claims are met, there is no prior art rejection. See In re Zurko 59 USPQ 2d 1690 (Fed Cir. 1991) and In re Lee, 61 USPQ 1430 (Fed Cir. 1991).

Therefore, the claimed invention would not have been obvious to the person with an ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the communication after allowance such as sending all post-allowance correspondence should be directed to " Box Issue Fee" or faxed directly to PUBS at 703-305-8755. This will expedite the process of these papers.
